European Journal of Operational Research 35 (1988) 475–476
North-Holland

Contents Volume 35

1 Optimal preventive maintenance scheduling of thermal generating units in power systems—A survey of problem formulations and solution methods
B.L. Kralj and R. Petrovic
16 Reduction of paradoxes in subjectively judged competitions
J.S. Frederiksen and R.E. Machol
30 BUILD-1: A disaggregate model of the U.S. electric utility industry
E.L. Hillsman, D.R. Alvic and R.L. Church
45 A new approach for crew pairing problems by column generation with an application to air transportation
S. Lavoie, M. Minoux and E. Odier
59 Application of a search algorithm to stream assimilative capacity management
S.L. Ong and B.J. Adams
71 An incremental discount pricing schedule with multiple customers and single price break
K.H. Kim and H. Hwang
80 Bifurcations and chaos in a generic management model
D.R. Rasmussen and E. Mosekilde
89 Reliability concepts under the theory of evidence
M. Delgado and S. Moral
98 Modeling of building evacuation problems by network flows with side constraints
W. Choi, H.W. Hamacher and S. Tufekci
111 Controlled dual perturbations for posynomial programs
S.C. Fang, E.L. Peterson and J.R. Rajasekera
118 A note on the *m*-center problem with rectilinear distances
Y.P. Aneja, R. Chandrasekaran and K.P.K. Nair
124 OR Software, *H. Thiriez (ed.)*
126 Book Reviews
129 EURO Bulletin, *M. Despontin (ed.)*

137 Perspectives on practical aspects of truck routing and scheduling
D. Ronen
146 A comparison of LP software on personal computers for industrial applications
H. Stadtler, M. Groeneveld and H. Hermannsen
160 A note on evaluating LP software for personal computers
R.W. Ashford and R.C. Daniel
165 A mixed integer programming model for fertiliser policy evaluation
J. Glen
172 Safety stock determination with correlated demands and arbitrary lead times
S. Fotopoulos, M.-C. Wang and S.S. Rao
182 Disaggregation under uncertainty in hierarchical production planning
E.A. Ari and S. Axsäter
187 Analytical solution of closed-loop conveyor systems with discrete and deterministic material flow
A.S. Bastani
193 A Lagrangean dual ascent algorithm for simple plant location problems
M. Guignard
201 A fast feasibility test for relocation problems
E.H. Kaplan and A. Amir
207 Hierarchic Markov processes and their applications in replacement models
A.R. Kristensen
216 Aggregation of constraints in integer programming
B. Ram, M.H. Karwan and A.J.G. Babu
228 A finite procedure to generate feasible points for the extreme point mathematical programming problem
J. Fülöp
242 A reoptimization algorithm for the shortest path problem with time windows
M. Desrochers and F. Soumis

0377-2217/88/$3.50 © 1988, Elsevier Science Publishers B.V. (North-Holland)

255 Optimal compromising within a multicriterial conflict zone
R. Östermark
263 Aspiration profile preserving compromising within a multicriterial conflict zone
R. Östermark
271 A minimum variance of utility approach to ideal point estimation in certain biased groups
M.D. Troutt
278 A batch acceptance complement method for generating random variables
R.Y. Rubinstein and J. Kreimer
286 OR Software, *H. Thiriez (ed.)*
288 Book Reviews
294 EURO Bulletin, *M. Despontin (ed.)*

301 System dynamics and microworlds for policymakers
J.D.W. Morecroft
321 Linear programming on a micro computer: An application in refinery modelling
A. Uhlmann
328 The nozzle guide vane problem: Partitioning a heterogeneous inventory
A. Balakrishnan, R. Plante and R. Wong
339 Selecting transfer station locations for large solid waste systems
Ö. Kirca and N. Erkip
350 A computational model for solid waste management with application
H.W. Gottinger
365 Multiobjective mathematical programming models for acid rain control
J.H. Ellis
378 Balancing hydraulic turbine runners
G. Laporte and H. Mercure
382 Analysis of a conveyor queue in a flexible manufacturing system
E.G. Coffman, E. Gelenbe and G.N. Gilbert
393 Modelling and scheduling a batch-type production on identical machines
T.J. Sawik
401 Regenerative pul (Kanban) production control policies
A. Seidmann and W.E. Simon
414 A transportation type aggregate production model with bounds on inventory and backordering
S.S. Erunguc and S. Tufekci
426 Simultaneous and dynamic price, production, inventory and capacity decisions
C. Gaimon
442 On the integer properties of scheduling set partitioning models
D.M. Ryan and J.C. Falkner
457 OR Software, *H. Thieriez*
459 Book Reviews
469 EURO Bulletin, *M. Despontin*
